

What we do

Optimum Anesthesia began with a team of board certified anesthesiologists who have a deep understanding of anesthesia care and the many issues associated. The managing partners of Optimum Anesthesia have helped practices and facilities for more than a decade:

- Reduce their staffing requirements
- Decrease procedure times
- Experience higher productivity

We pride ourselves on our flexible staffing services — meaning no matter the time or day we can keep your office running. Our clients have 24/7 access to our database of staff through our software scheduling system.

In addition to staffing services, Optimum Anesthesia also handles all of the business operations associated with anesthesia care, including:

- Billing and collection
- Third-party credentialing
- Employment of skilled CRNA's
- Facility and third-party payer contracting
- Meeting all accreditation requirements

OPTIMUM ANESTHESIA

Optimizing your productivity,
profitability and patient satisfaction

Drawing from our strengths
to optimize your practice

“Increasing your practice’s productivity and profitability”

Optimizing practices and facilities

Optimum Anesthesia is the preferred partner for physician practices, ambulatory surgery centers and hospitals — providing turn-key anesthesia services with not only a history of medical success, but with solutions that help to build business. We offer our clients cost efficient anesthesia services that ensure patient safety while increasing your productivity and profitability. By drawing on the reliable strengths of Optimum Anesthesia, your practice or facility can take on more patients and procedures, and be free of the headaches associated with billing and management for anesthesia services.

Our practice is founded on a commitment to the following principles:

- Being a turn-key service provider
- Efficient drug utilization
- Increasing productivity and profitability
- Providing expert care
- Client satisfaction

“Providing turn-key anesthesia services”

A partner for clients

At Optimum Anesthesia, we highly value the partnerships we build with each of our clients and are committed to their success. Due to this commitment, we attend and assist in all regulatory and accreditation meetings for our clients’ facilities. Our presence at these meetings allows us to not only stay up to date on the latest information provided by these regulatory bodies, but to also lend our expertise and support throughout the process.

Efficient drug utilization

As with all of our services we look to how we can help your practice or facility increase its productivity and profitability — and drug utilization is no exception. By efficiently managing the use and inventory of all drugs, we minimize wastefulness commonly associated with drug utilization. Not only do we offer access to optimal drugs, our staff has the expertise to make the appropriate recommendations based on the patient and the procedure.

“Board certified, fully credentialed anesthesia providers.”

Clinical Expertise

The staff of highly skilled practitioners at Optimum Anesthesia is committed to providing the best anesthesia care. Our staff of highly trained, efficient CRNA's and MDA's has a deep understanding of the many unique issues related to ambulatory anesthesia. All of our anesthesia providers are board certified and fully credentialed to ensure the best possible outcomes for your patients.

By choosing Optimum Anesthesia:

- Experience increased patient satisfaction
- Intra-operative and post-operative experiences are much more positive
- Procedures and recovery times are shortened
